Plus much more....

# DAMP PROOFING

Damp proofing is one of the most common complaints in building maintenance.

Rising damp and lateral damp can cause major structural problems to walls in any type of building. Effective treatment of this is imperative.

Our damp proofing comes with a guarantee to give you peace of mind that our solution has worked for you.

## Some of the common causes of rising damp:

- Leaking water
- Leaking waste water pipes
- Worn mortar joints
- Flawed brickwork
- Damaged render
- Sub standard flashings
- Damaged tile grouts in shower and wet areas
- Damaged or badly installed membranes
- Defects in neighbouring property
- Aircon or hot water system overflows

# ROOF REPAIRS

Supreme Waterproofing and Painting can assist you to diagnose and repair your roof and ceilings.

To avoid major structural damage, you should always keep your roof maintained. We recommend an inspection every 3-5 years.

Our friendly and knowledgeable staff can assist you with an inspection and full report on what solution or solutions you require.

## Supreme Waterproofing can provide repairs to all types of roofs:

- Pitched roof
- Flat roof
- IBR Roof
- Concrete Roof

## Let us assist you if you have the following:

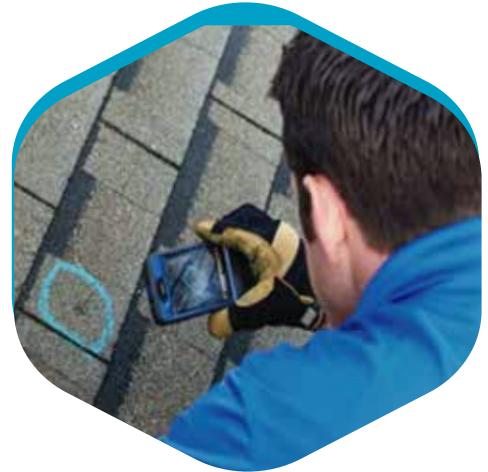

- Sagging and damaged ceilings
- Rotten or damaged timber
- Damage or damp spots from leaks
- Broken flashings – around skylights, parapet and sidewalls, chimneys, ducts, or vents.

## ROOF INSPECTIONS

Supreme Waterproofing will utilise our experience to provide a detailed, professional report of your roof or waterproofing, the causes, the remedy, and most importantly the cost.

We can provide a report on domestic/residential, commercial, or industrial buildings.

## VERMICULITE

Supreme Waterproofing sells all grades of Vermiculite for all applications.

We can offer best advice on the use of Vermiculite in various applications.

Our experienced teams can also create mixes and apply Vermiculite for various waterproofing and construction uses.
